

# MIGNON SINGLE DOSE PRO

*Master the single dose revolution with Mignon Single Dose PRO, where retention has never been so low!*

## Main features & Advantages

- 1) Pure Diamond 65mm burrs** perfectly suited for efficiently grinding with exceptional productivity for espresso italiano (around 2 g/s).
- 2) New Anti-Retention system** that incorporates innovative technology, combined to the 15° inclined body and included blow system, which significantly enhances lower retention (**retention level improved by 80% compared to Mignon Single Dose**).
- 3) New chute design** that offers improved outflow for various coffee preparations.
- 4) New Aluminium King-Size Dial with rev counter (patent pending)** designed for superior comfort, extremely precise grind size adjustments, and an ease of switching between different coffee preparations.
- 5) Metal dosing cup** for coffee collection (80 gr), with external ring to easily transfer the ground coffee into espresso machine portafilter, combined with "anti-chaft" dosing funnel to avoid coffee waste.
- 6) Exclusive design** that includes wood refined finishes, premium materials and unbreakable titan bean hopper.
- 7) Compatible with the new Eureka Black Diamond burrs collection**, designed to upgrade and empower the grinder for various coffee preparations including espresso specialty, filter coffee and all-purpose.
- 8) Unbreakable 45 g tritan bean hopper** with metal revolving tab.

## Core Eureka features:

- **The A.C.E. System (Anti Clumps Electrostaticity System)**  prevents the formation of clumps and eliminates the electrostatic charge of the ground coffee.
- **Silent technology**  Extremely silent grinding thanks to the exclusive anti-vibration solution.
- **High Speed Maintenance**  grinding through the lower burr allows to get to the grinding chamber through a limited number of screws and passages, thus avoiding to waste time and coffee.
- **Stepless micrometric regulation system** (patented by Eureka)  with infinite adjustment points, allowing to carry out maintenance operations without losing the grinding setting.

**Brand:**  
Eureka ORO
